

# About Climax Manufacturing

Located in Upstate New York, Climax Manufacturing has experienced success since our beginning in the early 1900's. Climax Manufacturing continues to lead the Retail Packaging Market with the unique ability to develop partnerships with our valued customers. Climax Manufacturing is known in the marketplace for exceptional quality, creative packaging designs and superior customer service. We are best recognized for transforming a customer's vision into an actual packaging program. We refer to this approach as our "Concept to Carton" commitment.

With a prestigious customer base, we manufacture custom boxes for fish processors in Canada & the US. Seafreeze, Scotia Gardens, Breakwater and Sea Pride are a few. ShopRite, Hannaford, and Stop & Shop are part of our supermarket group. The Gap, Hudson's Bay Company, Bloomingdales, Saks 5th Avenue, Neiman Marcus, Eddie Bauer, and United Airlines round out the retail clients.

# Let Us Help Your Business

When it comes to the design, manufacturing and delivery of packaging products, no one is better! At least that's the reputation we're striving to achieve. With a workforce of more than 300 skilled, dedicated employees, Climax takes great pride in our ability to meet and exceed the needs of our customers. Every order, large or small is handled with the same care and urgency. Each and every employee shares the responsibility of providing the best product possible, the highest level of customer service and most importantly, assuring you, our valued customer, is totally pleased with every aspect of your experience.

## Introducing The Climax Seaboard Seafood Packaging Program

Manufactured with a heavy caliper solid fiber board, the Climax design offers excellent water hold-out, rugged construction and efficient freeze properties. Finally, a North American packaging manufacturer has achieved success in this demanding market.

## What is Climax Seaboard?

Seaboard is an exciting new product from Climax Manufacturing. It's made of a proprietary board that is durable, 100% recyclable and most importantly, it has a moisture barrier making it a perfect fit for the seafood processing industry. The Seaboard box can be hand or machine filled, on shore or off!
